

# Fixed LCD TV/Monitor Mount - 10" to 24"

## Installation Instructions

### Step 1: Wall Plate Installation

#### Wood Stud Installation

- 1 Use a high-quality electronic stud finder (commercially available) to locate dead center of two studs and mark their locations with a pencil (figure 1-a).
- 2 Hold the wall plate to the wall and mark four locations to be used for mounting the wall plate.
- 3 Take down the plate and drill four holes at the position you've marked.
- 4 Attach the wall plate to the wall again and insert the bolts (A) and large washers (D) into the holes (figure 1-b) and tighten.

### Concrete/Brick Wall Installation

- 1 Place the wall plate against the wall and mark four locations to be used for mounting the wall plate.
- 2 Pre-drill four holes at the positions you've marked and insert one concrete anchor (B) into each hole.
- 3 Position the Wall Plate onto the wall again and insert the bolts (A) and large washer (D) into the anchor as shown (figure 1-b) and tighten.

### Step 2: Display Plate Installation

---

- 1 Place your TV screen down on a soft, flat surface, and locate the threaded mounting points that are located on the back of the display.
- 2 According to the size of the display's hole, choose the corresponding screw (E/F/G) and small washer (C) and insert into the hole as shown (figure 2-a) and tighten.

### Step 3: Final Installation

---

- 1 Hang the display plate onto the top of the wall plate and slide it onto the wall plate as shown (figure 3-a).

### Maintenance

---

Check the mounting screws every two months for tightness.

**IMPORTANT:** If you don't understand the installation instructions, please consult an installation specialist
